Officers: David Tokarski, President / Bojana Maric, Vice President / Matt Boyer, Secretary / Ray Santiago, Treasurer / Larry Wymer, Past President

JUNE LUNCH MEETING

SPEAKER: Bruce De Terra, Chief, Office of Planning and Modal Programs, Caltrans District 3

TOPIC: *Corridor System Management Plans – the Latest in Caltrans’ Planning Innovation*

Caltrans and its partners are taking a dynamic turn in transportation planning and system operations with the creation of Corridor System Management Plans (CSMPs). A CSMP is a foundation document supporting the partnership-based, integrated management of all travel modes (transit, cars, trucks, bicycles) and infrastructure (rail tracks, roads, highways, information systems, bike routes) in a corridor so that mobility along the corridor is provided in the most efficient and effective manner possible.

Caltrans recently finalized six CSMPs in the District 3 area covering portions of Interstate 5, Highway 49, Highway 50, Highway 65, Interstate 80, Highway 99, and the Capital City Freeway.

Bruce De Terra is the Chief for the Caltrans District 3 Office of Planning and Modal Programs. His group works on all Planning aspects including system planning, local development review, complete streets, transit programs, climate change, GIS and regional transportation planning agency administration for the District. Bruce has been working with Caltrans in various capacities for approximately 20 years in District 3, Headquarters, and District 4 (Bay Area).

In the mid-1980s Bruce served with the Peace Corps in Ecuador giving him a practical approach to personal mobility. As a resident of Davis, he's observed that transportation system improvements are achieved through incremental, sustained efforts guided by a larger vision.
