

OCTOBER, 2005 NEWSLETTER

INSTITUTE OF TRANSPORTATION ENGINEERS - Northern California Section

October Meeting Presentation

Scott Gandler, a Senior Engineer with the City of Roseville, had a full house of over 60 attendees for his presentation of Roseville's experience with Smart Growth and transportation strategies. He went over three recently approved projects: West Roseville Specific Plan – Village Center, Stonepoint, and The Riverside Gateway Specific Plan. His presentation was very well received and there were many follow up questions from an interested audience.

FUTURE MEETINGS

- Next lunch meeting: November 17, 2005
- Informational meeting: November 4, 2005

Mid-month Information Meeting City of Sacramento

Find out what's new in City of Sacramento Development Review! The City will discuss improvements to their development review process, introduce the MATRIX concept, and offer insight into the future of the Development Services Department. Planners, engineers, consultants, contractors and all interested parties are welcome to attend.

Location: New City Hall, Second floor,
Room 2105, 915 I Street
Date: Friday, November 4, 2005
Time: 8:15 a.m. to 9:00 am.

Please RSVP to Kate Binning at
kbinning@cityofsacramento.org or
916-808-8365 by November 1st if you plan to
attend.

CSUS Announcements

Student Chapter

Sacramento State has an active student chapter this year and they invite us to check out their website and/or attend upcoming meetings or other events. Check out the link below to their website.

<http://www.csus.edu/org/ite>

If you would like to give a transportation project presentation at one of their monthly meetings (also great way to attract entry-level transportation engineers or interns), you are invited to contact Dr. Kevan Shafizadeh, Professor of Civil Engineering and Student Chapter Faculty Advisor, at (916) 278-5348 or shafizadeh@csus.edu.

Sacramento-Area Transportation Professionals E-Mail List

Professor Shafizadeh also recently started an e-mail list to bring together local transportation professionals across organizations and disciplines. The "Sacramento Area Professional Transportation E-Mail List" (Sac-Trans-L) was created to share information among individuals in policy, planning, as well as engineering. More information about this list can be found at the link below.
