Thursday, May 17th

Design Immunity for Public Entities: *Best Practices for Avoiding Liability*

The risk of being sued is always present—and sometimes unavoidable. Fortunately, where proper steps are taken, public entities can assert design immunity to avoid liability for the alleged dangerous condition of public property. Sacramento attorneys Joann Rangel and Stephen Horan will discuss the purpose, protections, and limitations of the design immunity defense and the best means to ensure its application in planning and designing public improvements.

Joann M.O. Rangel, Esq.
Partner, Lewis Brisbois Bisgaard & Smith, LLP
