[Central California Section ITE](#) • [NorCal Section ITE](#) • [SF Bay Area Section ITE](#)

[Click Here to RSVP](#) (Please RSVP by October 25th)

Meeting Info: October 27, 2021 | 12:00pm – 1:00pm | Virtual Meeting (Zoom)

Presenter:

Andrew Mathers

Transportation Research Center (TRC)

Andrew Mathers is the Director of Proving Ground Operations for Transportation Research Center Inc. and leads the TRC California facility. Andrew holds a B. Eng. in Automotive Engineering from Ontario Technical University and an MBA

from Ohio University. He was previously employed by the University of Western Ontario as the Project Engineer and Operations Manager for the WindEEE wind tunnel facility.

Since joining TRC 5 years ago Andrew has held multiple positions including Director of Facilities, overseeing all maintenance, repair and new construction on the 4500 acre TRC Ohio Facility. Andrew led the design and construction of TRC's \$45 million Smart Mobility Advanced Research and Test Center (SMARTCenter) a 540 acre facility focused on the development and testing of automated and connected vehicles.

In May he relocated from Marysville, Ohio to Turlock, California to lead the new TRC California operation. Andrew is a member of Professional Engineers of Ontario (PEO), Society of Automotive Engineers (SAE) and Vice Chair of the International Committee on Proving Ground Safety (ICPGS).

Technical Presentation:

**Introduction to Transportation Research Center:
New Facilities for Development of Automated and
Connected Vehicles**

TRC provides a variety of research, development and test services to over 1000 industry, government and academic clients from around the world. The presentation will provide an overview of TRC's facilities and services with a focus on two recently completed large scale projects, the SMARTCenter in Ohio and TRC California in Atwater.
